

Meta-context $s(L)$

```
graph LR; A[Meta-context s(L)] --> B[Local posterior q1];
```

The diagram consists of two light blue rectangular boxes with dashed gray borders. The left box contains the text 'Meta-context s(L)'. A dashed gray arrow points from the right side of this box to the left side of the right box. The right box contains the text 'Local posterior q1'. Below both boxes, centered, is the text 'Optional higher context'.

Local posterior
 q_1

Optional higher context
